

Virtual Campus Data Clean Notice

Data Cleaning Dates

Please note that on the **Mon 2nd Aug to Wed 4th August** the Virtual Campuses data will be cleaned and the Virtual Campus will be unable to be used by staff or students.

What is the Virtual Campus Data clean?

The old 20-21 students Virtual Campus data needs to be cleaned from Virtual Campus courses otherwise in 21-22 you will see old student quiz data, forum data, etc for students who have left. Please note no resources will be removed at all only result data. This often confuses students and staff on courses and causes usage issues so as a result the data has to be cleaned every summer.

What if my course data is needed?

Please contact Kevin.cooper@wmc.ac.uk and we will either make a backup of your course or we will not clean the data for that course depending on the circumstances. Please note this is very rare that staff require data to be carried over to the following academic year.

Many Thanks

IT Team
